

Mont Peney - Climbing Guide

Great Experience

Approach:

Location: France, Savoie, near Chambéry

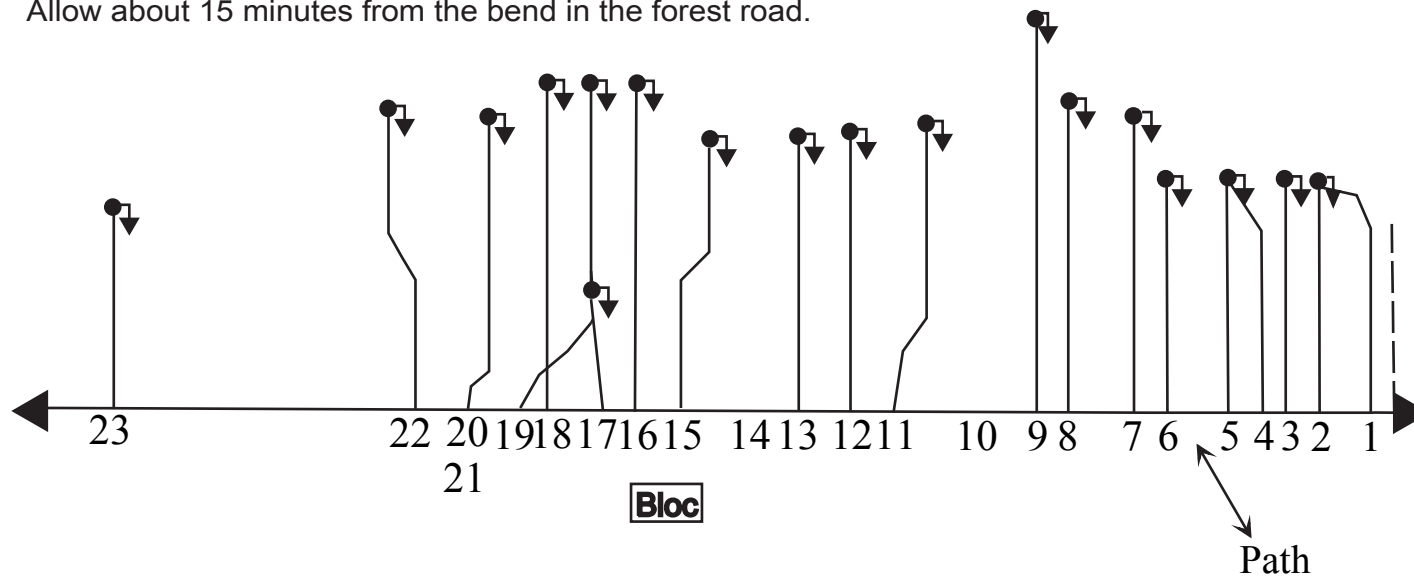

1hr from Geneva, Switzerland

45mins from Lyon, France

Altitude: 900m

Orientation: south-east (in the shade from 3pm in summer)

On the D912 heading south towards Chambéry, in La Féclaz, 500m before Les Déserts, turn left onto an asphalt forest road (small chapel). At the first hairpin bend, take the signed trail that passes through the rock outcrop (via Passage de la Dorette) and drops down in the direction of St Jean D'Arvey. Once past this outcrop, follow a trail on the right which leads along the bottom of Le Peney cliff. Locate a big wall with grey streaks, dominated by an overhang. To the left of this wall, the cliff features a large dihedron from which the Festin de Babette route starts. The Grande Expérience sector is on its left. Allow about 15 minutes from the bend in the forest road.
